

Clip out the card and take it with you to the store as your reminder of our organization's Good Neighbor Program account number to fill in on your Remarkable card application.

Here's how it works: Your organization fills out an application, found in the Good Neighbor Program brochure available at our stores. Once your organization's application has been approved, it will be assigned an exclusive account number. That number must be communicated by your organization to the supporters of your group, who can then link your account number to their Remarkable Card. Your supporters will simply fill out the Good Neighbor program section and the top part of a Remarkable Card Application, indicating your organization's number and return it to the Courtesy Booth. That's it! Your organization is now linked to those cards. From that point on, the purchase price of groceries will automatically be recorded to your organization's Good Neighbor account. We keep a running total of your account, and a check for 1% of the total is sent directly to your organization each quarter.

We will pay 1% of your members' total grocery purchases to your fund-raising organization, as long as the cardholders are in good standing with Randalls. The amount of the check depends on the amount of your supporters' total purchases.
